**RENEWED PETITION UNDER 37 C.F.R. § 1.182 FOR RELIEF NOT
OTHERWISE PROVIDED FOR UNDER THE RULES - REQUEST FOR RE-
RECORDATION OF ASSIGNMENT**

Dear Sir:

This is a Renewed Petition Under 37 C.F.R. § 1.182 for Relief not Otherwise Provided for Under the Rules. Petitioner hereby requests re-recording of an assignment.

A previous Petition Under 37 C.F.R. § 1.182, filed Nov. 21, 2011, was dismissed in a Decision on Petition mailed May 25, 2012. Review of this Renewed Petition is respectfully requested.

The Petition filed Nov. 21, 2011 was dismissed due to a lack of evidence that the error occurred on the part of the Office. (Decision on Petition at Page 2). The Decision on Petition indicates a Renewed Petition should include a showing that the Office received the document the petitioner wishes to have re-recorded.

As evidence showing the Office received the document the petitioner wishes to have re-recorded, please find enclosed 1) a copy of the "Express Mail" mailing label for the assignment recordation document and 2) an Affidavit of Robert Chang.

Petitioner notes that the facts as summarized in the "BACKGROUND" section and the allegations of the petition summarized in "THE PETITION" section of the Decision on Petition appear to be proper. (Please see Decision on Petition at Page 1). However, for the sake of completeness, that information is being provided again in this Renewed Petition and is as follows:

1. The enclosed assignment recordation cover sheet and assignment document were previously submitted for recordation on January 31, 2007, and were recorded on Reel 019077 Frame 0001.
2. Due to USPTO error, a signature page of the submitted assignment document is missing from the recorded document. The signature page includes the signatures of Mark S. Stickel (President of Primary PDC, Inc.), Thomas L. Beaudoin (COO/CFO Polaroid Corporation), and Brian M. Smith (Notary Public), and should appear at Frame 0009. Further, a blank page, which was not included in the originally submitted assignment, appears at Frame 0218. Therefore, the total page count of 389 matches for the documents as submitted and the documents as recorded. However, the contents of the submitted and recorded documents do not match.

As will be appreciated, our office does not have a clean copy of the recorded assignment document which was mailed to the Office. In order to expedite recordation, an assignment recordation document is provided herein. In the assignment recordation document, pages 2–389 are as provided previously to the Office on Jan. 31, 2007, page 1 is as received from the Office showing the signature block in the as filed assignment recordation document.

We respectfully request that assignment recordation document be recorded in its entirety as originally submitted or that the Reel / Frames at issue be corrected to match the as filed assignment recordation document.

This petition is being submitted under 37 C.F.R. § 1.182 and is accompanied by the fee set forth in § 1.17(f). Form PTO-2038 is attached. The Office is invited to call Blayne Green at (503) 719-9473 if there is any issue with this submission.

Respectfully submitted,

AFFIDAVIT OF ROBERT H. CHANG

Dear Sir:

I, Robert H. Chang, being first duly sworn, do depose and say:

1. I am a Patent Attorney registered with the USPTO (Reg. No. 48,765).
2. In approximately January of 2007, I prepared an assignment recordation document for a supplemental assignment from Primary PDC, Inc. (fmr Polaroid Corporation) to Polaroid Corporation (fmr OEP Imaging Operating Corp.).
3. The prepared assignment recordation document included a cover page, five continuation pages to the cover page, and a supplemental assignment of patent rights having 383 pages for a total of 389 pages.
4. I printed the 389 page assignment recordation document and verified each page was properly printed by looking at each page of the assignment recordation document, counting each page, and verifying the total page count as per office procedure.

5. I signed the printed assignment recordation document at page 1 on January 31, 2007.
6. I placed the signed assignment recordation document into an envelope and mailed it with sufficient postage to the UPSTO via the USPS "Express Mail".
7. That, to the best of my knowledge, all statements made in this document are true, and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the above-identified patent application or any patent issued thereon.

OFFICE OF PETITIONS

In re Patent No. 6,482,950
Issue Date: November 19, 2002
Application No. 08/479,077
Filed: June 6, 1995

: DECISION ON PETITION
:
:

This is a decision on the petition under 37 CFR 1.182, filed November 21, 2011, to re-record an assignment document.

The petition is **DISMISSED**. This is not a final agency action.

BACKGROUND

On January 31, 2007, a document totaling 389 pages was submitted to the Office for recordation as an assignment. This document was recorded at reel 019077 and frame 0001. The document submitted for recording was directed to numerous patents and patent applications. The page count listed on the cover sheet of the document, 389 pages, matches the page count of the document recorded. A blank page appears at frame 0218 of this document.

THE PETITION

The petition indicates that two (2) pages in the document recorded at Reel 019077 and Frame 0001 are omitted or are otherwise incorrect. Specifically, the petition alleges that a signature page that includes the signatures of Mark S. Stickel, president of Primary PDC, Inc., Thomas L. Beaudoin, COO/CFO of Polaroid Corp., and Brian M. Smith, Notary Public, is missing from the recorded document and should appear at frame 0009. The petition also alleges that the blank page that appears at frame 0218 of the recorded document was not part of the originally filed document. The petition further alleges that the omitted and incorrect pages resulted from Office error, and the petition requests that the document be re-recorded in its entirety at Office expense.

DECISION

Petitioners should note that failure to include the proper identifiers delays responding to correspondence. As set forth in MPEP 502,

All correspondence related to a national patent application already filed with the U.S. Patent and Trademark Office must include the identification of the application number or the serial number and the filing date assigned to the application by the Office. Any correspondence not containing the proper identification set forth in 37 CFR 1.5(a) will be returned to the sender by the Office of Patent Application Processing (OPAP). Each paper should be inspected to assure that the papers being returned contain either an "Office Date" stamp or a TC date stamp. A minor error in the identification of the application can be corrected by the Office provided the correct identification can be quickly discovered. Examples of minor errors are transposed numbers, typographical errors, and listing the parent application number. The failure to give any application number is not a minor error. The Office often experiences difficulty in matching incoming papers with the application file to which they pertain because insufficient or erroneous information is given. This applies especially to amendments, powers of attorney, changes of address, status letters, petitions for extension of time, and other petitions.

Although the petition was submitted with the reel and frame number for the assignment document, petitions are decided within application and patent files. Furthermore, submission of a document to the assignment database will result in that document being recorded therein with no further action other than the recordation. Further, documents submitted to the assignment database must include a coversheet to ensure that they are properly routed. Accordingly, the petition filed November 21, 2011 has been considered with regard to Patent No. 6,482,950, application serial number 08/479,077, only and is not present in the files of the other cited patents or applications. Application serial number 08/479,077 is the first application cited in the assignment document cover sheet that accompanied the petition. Also, the required petition fee under 37 CFR 1.17(f), filed with the petition, has been applied to the file for Patent No. 6,482,950 only. If petitioner desires consideration of the petition in any of the other cited patent and/or application files, a separate petition under 37 CFR 1.182 (and fee) must be filed in each of the files to be considered in accordance with 37 CFR 1.4(b). However, if it is shown to the satisfaction of the Director that an error occurred on the part of the Office in application serial number 08/479,077, no further fees will be required in connection with any petition submitted in any of the remaining patent and/or application files.

The record for this matter has been reviewed. Based upon this review, no evidence has been found that any error occurred on the part of the Office in connection with the recordation of the document recorded at reel 019077 and frame 0001. The petition attached (1) a letter to Regina White of the Assignment Recordation Services branch generally alleging USPTO error, (2) a

credit card payment form, and (3) a copy of document petitioner wishes to re-record. None of these documents are sufficient evidence of Office error.

Absent evidence of Office error, the Office will not re-record the document as requested. Similar to the policy set forth in 77 Fed. Reg. 3745 (Jan. 25, 2012) for the Establishment of a One-Year Retention Period for Patent-Related Papers That Have Been Scanned Into the Image File Wrapper System or the Supplemental Complex Repository for Examiners, the records for this assignment document are presumed to be accurate. However, that presumption can be rebutted with evidence that is sufficient to overcome the presumption. See 77 Fed. Reg. 3745, at 3747. A general allegation that a paper requires correction filed without evidentiary support is not a *bona fide* request.

Any renewed petition should include a showing that the Office received the document petitioner wishes to be re-recorded rather than the document that was actually recorded. Such a showing can be made by presenting evidence of a proper Express Mail submission of the assignment document to be re-recorded with the USPS under 37 CFR 1.10 or a postcard receipt, or other receipt, affidavit or other sufficient evidence that properly identifies the assignment document and provides *prima facie* evidence that the assignment document to be re-recorded was filed. Evidence of a proper Express Mail submission includes a copy of the originally deposited paper(s) or fee(s) that constitute the correspondence showing the number of the "Express Mail" mailing label thereon, a copy of any returned postcard receipt, a copy of the "Express Mail" mailing label, or a copy of any other official notation by the USPS relied upon to show evidence of the deposit.

Telephone inquiries concerning this communication should be directed to Petitions Examiner Christopher Bottorff at (571) 272-6692.

SUPPLEMENTAL ASSIGNMENT OF PATENTS

THIS SUPPLEMENTAL ASSIGNMENT OF PATENTS ("Supplemental Assignment of Patents"), dated January 22, 2007 and effective as of July 31, 2002 ("Effective Date"), is made by and between Primary PDC, Inc. (formerly named Polaroid Corporation, including on the Effective Date), a Delaware corporation with offices at 1265 Main Street, Waltham, Massachusetts 02451 U.S.A. and formerly at 784 Memorial Drive, Cambridge, Massachusetts 02139 U.S.A. ("Assignor"), and Polaroid Corporation (formerly named OEP Imaging Operating Corporation, including on the Effective Date), a Delaware corporation with offices at 1265 Main Street, Waltham, Massachusetts 02451 U.S.A. ("Assignee"). Capitalized terms used and not otherwise defined herein shall have the respective meanings assigned to such terms in that certain Second Amended and Restated Asset Purchase Agreement dated as of July 3, 2002 ("Purchase Agreement"), by and among OEP Imaging Corporation, a Delaware corporation, Assignor and the Assignor's subsidiaries that are listed in the signature pages thereto.

WHEREAS, the July 3, 2002 Order from The United States Bankruptcy Court for the District of Delaware approved the Purchase Agreement and provided the Debtors (including, but not limited to, their respective officers, employees, and agents) are authorized and directed to execute and deliver, and empowered to perform under, consummate, and implement the Purchase Agreement (including, but not limited to, any and all such instruments of assignment, transfer, or conveyance as shall, in the reasonable opinion of the Purchaser and its counsel, be necessary or appropriate to vest in the Purchaser good, valid, and marketable title to the Acquired Assets (including, but not limited to, the Patents); and

WHEREAS, Assignee as of the Effective Date acquired certain assets from Assignor, including all of Assignor's right, title and interest in, to and under the Assigned Patent Rights (as defined below); and

WHEREAS, Assignor and Assignee executed an "Assignment of Patents," effective as of July 31, 2002, pursuant to the Purchase Agreement; and

WHEREAS, Assignor and Assignee are executing this Supplemental Assignment of Patents to confirm that all Assigned Patent Rights were sold, assigned, transferred, conveyed and delivered to Assignee on the Effective Date, including all of Assignor's right, title and interest in, to and under the Listed Patents (as defined below).

NOW THEREFOR, for good and valuable consideration, receipt of which is hereby acknowledged, Assignor hereby assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title and interest, in and to (a) all the patents and patent applications set forth on Schedule A hereto (the "Listed Patents"); (b) all patents or patent applications (i) to which any of the Listed Patents directly or indirectly claims priority and/or (ii) for which any of the Listed Patents directly or indirectly forms a basis for priority; (c) all reissues, continuations, continuations-in-part, continuing prosecution applications, requests for continuing examinations, divisions, provisional applications, reexaminations, and extensions of any item in any of the foregoing categories (a) and (b); (d) all foreign patents, patent applications, and counterparts relating to any item in any of the foregoing categories (a) through (c), including, without

limitation, certificates of invention, utility models, industrial design protection, design patent protection, and other governmental grants or issuances; (e) any items in any of the foregoing categories (b) through (d) whether or not expressly listed as Listed Patents and whether or not claims in any of the foregoing have been rejected, withdrawn, cancelled, or the like; (f) all inventions and discoveries described in any item in any of the foregoing categories (a) through (e) and all other rights arising out of such inventions and discoveries; (g) all rights to apply in any or all countries of the world for patents, certificates of invention, utility models, industrial design protections, design patent protections, or other governmental grants or issuances of any type related to any item in any of the foregoing categories (a) through (f), including, without limitation, under the Paris Convention for the Protection of Industrial Property, the International Patent Cooperation Treaty, or any other convention, treaty, agreement, or understanding; (h) all causes of action (whether choate or inchoate, known or unknown, contingent or otherwise) for infringement or misappropriation and other enforcement rights under, or on account of, any of the Listed Patents and/or any item in any of the foregoing categories (b) through (g), including, without limitation, all causes of action and other enforcement rights for damages, injunctive relief, and any other remedies of any kind for past, current, and future infringement, that may have arisen prior to or may arise after the Effective Date of this Supplemental Assignment of Patents; and (i) all rights to collect royalties and other payments under or on account of any of the Listed Patents and/or any item in any of the foregoing categories (b) through (h) (the foregoing (a) through (i) being the "Assigned Patent Rights").

1. Further Assurances. Assignor hereby covenants and agrees to cooperate reasonably with Assignee, and to execute and deliver to Assignee such other instruments of conveyance or transfer and take such other reasonable actions as may be reasonably requested by Assignee to sell, assign, transfer, convey and deliver to Assignee all of Assignor's right, title, and interest in and to the Assigned Patent Rights therein and hereby sold, assigned, transferred, conveyed and delivered to Assignee (including without limitation, the execution, acknowledgment, and recordation of specific assignments, oaths, declarations, and other documents on a country-by-country basis, to assist Assignee in obtaining, perfecting and sustaining the Assigned Patent Rights); and in case of conflict between any such instrument and this Supplemental Assignment of Patents, such specific instrument shall control with respect to the assignment, conveyance transfer or delivery of Assigned Patent Rights effected thereby.

2. Governing Law. This Supplemental Assignment of Patents shall be governed by the laws of the State of Delaware, without regard to the principles of conflicts of law thereof.

3. Assignor hereby authorizes the respective patent office or governmental agency in each jurisdiction to issue any and all patents, certificates of invention, utility models or other governmental grants or issuances that may be granted upon any of the Assigned Patent Rights in the name of Assignee, as the assignee to the entire interest therein.

4. The terms and conditions of this Supplemental Assignment of Patent Rights will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, assigns, and other legal representatives.

IN WITNESS WHEREOF, the parties hereto have caused this Supplemental Assignment of Patents to be duly executed and delivered as of the day and year first set forth above to be effective as of the Effective Date.

LISTED PATENTS

8333-PRO		US	MULTIPLE MODE IMAGING SYSTEM	60/074,527	2/12/98
8341-PRO		US	METHOD AND APPARATUS FOR PERFORMING DIAGNOSTIC TESTING	60/104,150	10/14/98
8380-PRO		US	SCANNING SYSTEM FOR FILM RECORDER	60/113,564	12/23/98
7392		US	Thermal Imaging Medium	07/435,482	6/5/89
7225		US	Laser imaging element and method	06/939,854	12/9/86
7392		US	THERMAL IMAGING MEDIUM	07/435,482	6/5/89
8416-PRO		US	Combination camera	60/179,231	1/31/00
8452-PRO		US	Compact photographic camera	60/223,958	8/9/00
8453-PRO		US	Compact photographic apparatus of the self-developing Type	60/233,003	9/15/00
8449-PRO		US	Simplified self-developing film assemblages and methods of making the same	60/216,983	7/7/00
8397-PRO		US	VIEWER/PRINTER SYSTEM FOR IMAGE CAPTURING APPARATUS AND METHOD	60/151,884	9/1/99
6483-PRO	4,330,350	US	Preencodable ID cards	06/240,083	3/3/81
6194	4,428,997	US	Protective coatings for documents	06/107,415	12/26/79
6902	4,516,845	US	Security control system and method for identification card cameras	06/605,618	4/30/84
6373	4,531,765	US	Color coded ID cards	06/221,201	12/29/80
7382	4,956,683	US	Isolation of P.N junctions	07/167,780	3/14/88
